FIRST ACCESS TO CPMS:

Once you receive the authorization to access the CPMS, you can enter the system:

- **RECOMMENDED WAY OF ACCESSING:** transplantchild.eu
  
  On the right-hand side, at the top, select “CPMS” orange button. Then, you will be redirected to CPMS main login page.

![Figure 1. TransplantChild web page](image)

- **Or you can also access CPMS directly** [https://cpms.ern-net.eu/login/](https://cpms.ern-net.eu/login/)

![Figure 2. CPMS Login Page](image)

- Since you already have a EU login, you can access the platform by clicking on “Login via EU Login” (if not please check our guide on our [CPMS HelpDesk site](https://cpms.ern-net.eu/login/)).
• Enter your email, your password and the second verification method preferred. We recommended you the “Mobile Phone +SMS” option, since we have only entered the mobile phone in the EU login. Enter your mobile phone number, it must be the same you have entered in the EU login account.

**Figure 4. CPMS Second verification method**

**NOTE**: if you selected another verification method, please choose accordingly.

• You will receive a SMS with a verification code of 9 digits. Please enter this code in the system to continue. Click Sign in and you will be redirected inside the CPMS platform.

**Figure 5. CPMS Second verification method**
Now you will be able to access the CPMS system. If it is the first time you access the platform you must update your preferences. **This is important as this is the way in which other professionals in the CPMS will identify you.**

For this you should access to the **ERN view** of the platform by clicking on ERN at the top.

![Access ERN view on the CPMS](image)

Under the **ERN Preferences section** on the left, you must include your **professional role and the thematic areas** you are interested in.

![Set your preferences within the ERN application of CPMS](image)

**IMPORTANT: Please state your professional role with maximum detail, that includes:**

- Speciality: nephrologist, hepatologist, hematologist, transplant surgeon, etc.
- Transplant field: kidney, liver, intestinal, stem cell, heart, etc.

In case more than one apply, please specify (example: “Paediatric Nephrologist & Surgeon”).
